

The Institute resettled 317 refugees from 11 countries, and helped an additional 1,260 individuals with the process of becoming an American Citizen.

With an all-time high of 143 students enrolled in the Nursing Assistant program, 133 students received certification after completing training at the International Institute.

INTERNATIONAL INSTITUTE
of Minnesota

2011 Annual Report

The Institute and Saint Paul College started a FastTRAC partnership to help adult learners successfully complete Anatomy and Physiology—a key course for several medical degrees.

Providing a Strong Start to a New Life

2011 Accomplishments

1,778 individuals were served in Resettlement

In October, we began a regional **Anti-Trafficking initiative**. Through this program, we help foreign-born survivors of sex and labor trafficking across Minnesota and Northern Wisconsin—as well as create outreach programs to educate the public on signs of trafficking.

500 students were served in Education Programs

The **Medical Careers Pathway** employed 120 New Americans in living wage jobs in the healthcare field: 109 Nursing Assistant students found jobs and 11 New Americans advanced to become nurses or other medical professionals.

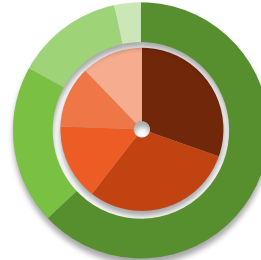

50,000 visitors attended the Festival of Nations

In partnership with the Minnesota Planetarium Society, the **Festival of Nations** brought the entire universe and new cultural awareness to the 2011 celebration. New refugee groups were represented at the Festival, giving them a chance to share their culture with the general public.
