

Medical Career Advancement

Medical Career Advancement at the International Institute is a program that offers guidance and tuition assistance to foreign-born individuals advancing their medical careers. We have current scholarship funding for **immigrant students** who have *completed their generals* and have been *accepted in college medical career training or nursing programs*.

Program participants receive individualized academic advising and support while in college and during early employment.

Medical Career Advancement services include:

- 1:1 academic and career advising
- Money management classes and financial coaching
- Partial tuition assistance for medical career training program classes
- Academic tutoring and NCLEX preparation
- Employment services
- Career advancement services

Wherever you find yourself on the Medical Career Pathway, Medical Career Advancement is here to support and advocate for you. Our agency also offers integrated services for ELL, job placement, workforce skills and cultural training.
